

ACCESSIBILITY IMPROVEMENTS AT PARKS

As part of the METRORapid University Corridor Project, METRO will be building sidewalks and ADA improvements at three City of Houston parks where the project passes: Mandell Park, Peggy Park, and Diez Street Park.

The City of Houston Parks and Recreation Department's (HPARD) acknowledges the overall benefit of the project results in "improved sidewalks and pedestrian / bicycle access to the parks". It is part of the federal process to notify the public of any changes to Park Property.
